

[Rippe & Kingston](#) Delivers
Flexible Global Data Synchronization Solutions for Dot Foods, Inc.

Dot Foods, Inc. is the nation's largest food re-distribution company and is currently #137 on the Forbes list of the largest privately-held companies in the United States with Revenue over \$3 Billion.

Dot Foods is a founding member and Governance Committee leader of the recently announced Foodservice GS1 US Standards Initiative. The Initiative is made up of 55 founding-member distributors, manufacturers and operators voluntarily committing to GS1 standards adoption for product information and electronic data exchange. Dot Foods' suppliers that individually choose to comply with GS1 standards will publish product information to their Global Data Synchronization Network (GDSN) data pool of choice, and will retrieve it from the 1SYNC data pool to populate Dot Foods' back-end information systems.
