

Rippe & Kingston helps you with live customer support for

Rippe & Kingston has been providing 1SYNC certified solutions through its partnership with LANSAs for many years to over 200+ suppliers. Our solutions are based on LANSAs's Data Sync Direct Software that can be implemented to meet your needs.

Synchronize product information across trading partners for a competitive advantage. **Rippe & Kingston** delivers flexible global data synchronization solutions — from software to hosted — that benefit both retailers and suppliers. Our LANSAs based solutions help retailers sell more and save money through shorter replenishment times, faster product introduction and reduced inventory. LANSAs's Data Sync Direct Software enables suppliers to synchronize internal data for greater efficiency and respond to retailer mandates. But the benefits to suppliers go beyond cleaning up internal data and attaining compliance. These solutions also make it possible for suppliers to enjoy the benefits of other related GDSN related initiatives.
